G. Incident Specific Coordinating Procedures (References)

1. Florida Coastal Pollutant Spill Contingency Plan.
 - a. The Florida Coastal Pollutant Contingency Plan was developed in compliance with Section 376.07 (2) (e), Florida Statutes, the Pollutant Discharge Prevention and Removal Act. This plan is activated in the event of an oil spill of any magnitude in State coastal waters.
 - b. Oil spill response plans have been drafted on the State Level in response to the Clean Water Act of 1977, formerly the Federal Water Pollution Control Act of 1972. The 1972 legislation established the National Oil and Hazardous Materials Contingency Plan as the basis for providing a federal response to major pollutant spills.
 - c. The Florida Department of Environmental Protection is responsible for the maintenance of the Florida Coastal Pollutant Spill Contingency Plan. The plan describes response efforts and the responsibilities of State agencies in the event of a spill. All coordination will be done through the State Emergency Operations Center. As more support is required for Environmental Protection, the State Emergency Operations Center will be activated to mobilize additional State resources.
2. Florida Electrical Emergency Contingency Plan.
 - a. Electricity is a vital part of Florida's infrastructure. It is critical for the existing and growing residential population, for commerce and industry and for tourism. Florida's electric utilities coordinate planning and operations to ensure adequacy and reliability of the electric system long-term and project that it will be adequate.

b. The purpose of the Florida Electrical Emergency Contingency Plan is to document guidelines and summarize procedures to be used by Florida's electric utilities and governing agencies in response to generating capacity shortages which impact or threaten to impact significant numbers of customers.
